It’s NOT what the doctor ordered.

Car accidents are no longer the leading cause of accidental deaths in the United States. This dubious distinction now belongs to prescription drug overdoses, mainly from prescription painkillers.

Finding of Centers for Disease Control (CDC) Report, December 2011

Practice safe storage of all drugs in the home.

Dispose of prescription and over-the-counter (OTC) drugs in authorized Collection Units whenever possible.

Prescription drugs are useful in improving many conditions when used exactly as directed by a physician. Do not stop taking any prescription medication without first consulting with your physician.
